

MARY ANN MENTOR PROFILE

A LITTLE BIT ABOUT ME

Mary Ann worked in public services for nearly 30 years in a variety of senior roles including Occupational Therapist, University lecturer, International Researcher, Organisational Development Consultant and Executive Coach. Through these roles she found her joy supporting people to be the best versions of themselves in life and business. She worked closely with people of all ages with complex physical and mental health needs, designed education curriculums, designed and delivered large events, presented to a range of young people and professionals from various arenas, and coached and mentored many individuals and business leaders in all aspects of work and life. Amidst all of this she also managed to gain a number of postgraduate and degree level qualifications, raise 3 beautiful children and be a step mum to triplets. At the heart of it all is Mary Ann's love of people, conversation and releasing potential.

Hello

Nominated as a Finalist

Mary Ann has always been an entrepreneur with a number of successful small businesses. Despite all of this she felt for many years that something was missing! With her husband by her side she did what she knew how to do best – get educated! She joined Legacy and has never looked back.

This was recognised in November 2019 when they were nominated as Finalists in the Scottish Empty Homes Champions of the Year Awards (Outstanding Service Category). Not only had they by this point brought 43 Empty Homes back into the rental market but they were also the only private company to be nominated. Mary Ann is proud of the strong relationships that she and her team continue to develop across the social housing sector.

Mary Ann has continued to coach and mentor business leaders but also international based individuals from Europe, Asia, New Zealand, Australia, Switzerland and Dubai to start property careers in the UK. This along with her passion for supporting young people and women in business resulted in the launch of We Achieve Associates Ltd in 2019 and leading the development of a Chamber of Commerce Women in Business Network. Mary Ann also enjoys presenting to small and large audiences using a variety of education and presentation strategies. This includes teaching the BTL and social housing strategy, presenting at 3 day events and being a member of a local meet up host team in Scotland that delivers monthly support to Scottish based investors.
